

Oak Ridge Schools

Office of the Superintendent

Administrative Procedure 4.601.2

Accessibility of Report Cards

A copy of a student's report card shall be furnished by the school district to the parent/guardian of the student.

While a hard copy of a student's report will be sent home with that student, the parent/guardian will also have the option to access the student's report card online.

Parents will use the student information system, Skyward, to access the students grades and report card online.
